

# STX AND SMX MODELS ADDRESSABLE FIRE ALARM SYSTEMS

## KEY FEATURES AND BENEFITS

Supports up to 159 detectors and 39 modules per loop  
(up to 636 detectors and 156 modules with the 4-loop panel)

**Single replaceable part (HW Module Unit)**  
for quick repairs, reduced maintenance costs & minimized downtime

**Mobile & PC apps with guided setup / programming** via Bluetooth, resulting in up to 75% less commissioning time

Intuitive arrangement of controls for **prompt user action**

Complies with **latest codes and standards** (UL 864 10<sup>th</sup> edition)

Ability to **configure panels offline, remotely and sync via USB**, thus eliminating the need to carry laptops / tools to the site

Designed to deliver an **expanding mid-market performance and facility needs**, e.g. increasing number of zones

**Unified panel fascia** designed to comply with regulations globally

**Easy to install** with pluggable interface connectors and circuit auto-learn

**Contemporary HMI interface** with a 5-inch multi-color touch screen for exemplified monitoring and control – enhanced readability (location labels, events, etc.), context-awareness and easy navigation
